Shannon Cross

Chief Strategy Officer

Agenda

- 8:30 – 9:30 AM** ■ **HPE Networking: Strategy, Integration, and Financial Outlook**
Rami Rahim
- 9:30 – 10:15 AM** ■ **HPE Networking Innovation Panel**
Praveen Jain, Sujai Hajela, David Hughes, AE Natarajan
Moderated by Shannon Cross
- 10:15 – 10:30 AM** ■ **Break**
- 10:30 – 11:15 AM** ■ **Q&A**
Rami Rahim and Shannon Cross
- 11:25 AM** ■ **Technology Showcase**

Forward-looking statements

You'll hear some forward-looking statements in today's presentation.

All statements other than statements of historical fact are statements that could be deemed forward-looking statements.

Our actual results could differ materially and we assume no obligation to update.

Financial information, plans, and projections reflect estimates based on information available at the time of this presentation.

These are based on risks and assumptions that may not prove correct.

These risks and assumptions are described in our latest Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q.

More detail can be found in your written materials.

Please see the slide designated "Forward-looking statements" in the Agenda and Disclosures presentation available.

Use of non-GAAP financial information

This presentation includes presentation of certain non-GAAP financial information.

We believe that providing these non-GAAP financial measures, alongside the corresponding GAAP measures, provides greater transparency to the information used by HPE's management in its financial and operational decision-making and provides a supplemental view to understand our historical and prospective operating performance.

These non-GAAP financial measures may have limitations as analytical tools. Some of the limitations in relying on these non-GAAP financial measures are that they may be calculated differently by other companies, limiting the usefulness of those

measures for comparative purposes, can differ materially from the comparable GAAP measures due to exclusion of items mentioned above and may not reflect the full economic effect of the loss in value of certain assets.

These measures should not be considered in isolation or as a substitute for analysis of HPE's results as reported under GAAP.

Certain financial information featured in the presentation today has been normalized to include Juniper Networks results as of the beginning of HPE's fiscal year 2024.

Normalized growth rates are calculated based on FY24 and FY25 results that have been normalized to include 12 months of Juniper Networks results, pre-acquisition close.

A large, stylized teal chevron graphic pointing to the right, composed of two overlapping triangles, serves as a background element on the right side of the slide.

Delivering strong results through the integration

SCALING REVENUE BY \$2B

GROWING OPERATING PROFIT \$900M

EXPANDING OPERATING MARGIN

The combined company FY24 Networking business financial metrics presented on this slide have been normalized as if Juniper Networks were a part of HPE during FY24. HPE and Juniper Networks had different fiscal years prior to close of the acquisition. As such, this normalized combined company financial information is based only on available quarterly financial information of HPE and what we believe to be reasonable estimates, calculations, and processes for internally prepared monthly financial data of Juniper Networks in an attempt to reconcile the differences in the differing quarterly reporting periods. Juniper Networks' accounting policies and practices may have differed from HPE and their internally prepared monthly financial data has not been reviewed or audited by either Juniper Networks or HPE's auditors. Furthermore, the above amounts may differ from historically reported amounts in HPE's or Juniper's SEC filings.

Raising year-end Networks for AI cumulative order outlook to exceed \$3B

ACCELERATING AI MOMENTUM

- ✓ Proven performance to meet growing requirements for DCI and AI on-ramp
- ✓ First to market in 1.6T scale-out solutions driving key wins
- ✓ Emerging opportunity with scale-up

Cumulative orders include 8 months of pre-acquisition Juniper Networks results.

Leaning in to meet strong demand

INCREASING NETWORKING PURCHASE COMMITMENTS

- ✓ Q3 orders growing 3.5x faster than revenue
- ✓ Doubled supply purchase commitments
- ✓ Expect to ease constraints into FY27

FY27 networking revenue guide

ACCELERATING OUR GROWTH RATE AND RAISING FY27 REVENUE GUIDANCE

✓ **Key wins in multiple markets**

✓ **Delivering revenue synergies**

✓ **High backlog and improved supply**
